

# NBCS Expands Fall Fundraising Activities

Building on the highly successful and popular Lawyers Leading the Way annual breakfast held in February, this year the Board of Trustees will organize two similar events for the Fall semester. The Lawyers Leading the Way Breakfast will continue and this year will celebrate its 8<sup>th</sup> Anniversary. Over 175 members of the legal community meet, share experiences, network, listen to a special speaker and enjoy a performance by our Concert Chorus.

On November 2<sup>nd</sup> members of the Greater Newark financial community including corporate Chief Financial Officers, Bankers, accounting firms, auditors and other

groups with similar interests will gather at the newly renovated Robert Treat Hotel for a similar experience. Although the goal is to support the Newark Boys Chorus School, the gathering provides excellent opportunities for members of the financial community to network; it helps strengthen the overall fabric of our business community. Newark Boys Chorus School Board trustees Kathleen Swain, Vice President and Internal Auditor at Horizon Blue Cross and Blue Shield of New Jersey and Mandeep Trivedi, Principal and Practice Leader at Citrin Cooperman are co-chairing the event.

A second fall breakfast is also in the planning stages. It will include members of the thriving construction industry especially developers, architects, builders, agents, and funders. Our board president, Martin Borosko, managing partner of Becker, LLC is spearheading the coordination for this event. The website will include the details as they become available.
